Source: U.S. Census Bureau, 2005 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Notes:

- The number of householders does not necessarily equal the number of households because of differences in the weighting schemes for the population and occupied housing units.
- For more information on understanding race and Hispanic origin data, please see the Census 2000 Brief entitled, [Overview of Race and Hispanic Origin](#), issued March 2001. (pdf format)

Explanation of Symbols:

1. An '*' entry in the margin of error column indicates that too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '***' entry in the margin of error column indicates that no sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
8. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
9. An '(X)' means that the estimate is not applicable or not available.

Source: U.S. Census Bureau, 2005 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Notes:

- The number of householders does not necessarily equal the number of households because of differences in the weighting schemes for the population and occupied housing units.
- For more information on understanding race and Hispanic origin data, please see the Census 2000 Brief entitled, [Overview of Race and Hispanic Origin](#), issued March 2001. (pdf format)

Explanation of Symbols:

1. An '*' entry in the margin of error column indicates that too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '**' entry in the margin of error column indicates that no sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
4. An '-.' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+.' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
8. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
9. An '(X)' means that the estimate is not applicable or not available.

Geographic Area: **Horry County, South Carolina**

NOTE: For information on confidentiality protection, nonsampling error, definitions, and count corrections see <http://factfinder.census.gov/home/en/datanotes/expsf1u.htm>.

Subject	Number	Percent
Total population	196,629	100.0
SEX AND AGE		
Male	96,534	49.1
Female	100,095	50.9
Under 5 years	11,298	5.7
5 to 9 years	11,808	6.0
10 to 14 years	11,819	6.0
15 to 19 years	12,080	6.1
20 to 24 years	13,345	6.8
25 to 34 years	27,958	14.2
35 to 44 years	29,665	15.1
45 to 54 years	26,996	13.7
55 to 59 years	11,556	5.9
60 to 64 years	10,634	5.4
65 to 74 years	18,459	9.4
75 to 84 years	8,970	4.6
85 years and over	2,041	1.0
Median age (years)	38.3	(X)

Subject	Number	Percent
18 years and over	154,700	78.7
Male	74,982	38.1
Female	79,718	40.5
21 years and over	146,930	74.7
62 years and over	35,865	18.2
65 years and over	29,470	15.0
Male	13,173	6.7
Female	16,297	8.3
RACE		
One race	194,524	98.9
White	159,363	81.0
Black or African American	30,468	15.5
American Indian and Alaska Native	793	0.4
Asian	1,498	0.8
Asian Indian	319	0.2
Chinese	220	0.1
Filipino	220	0.1
Japanese	108	0.1
Korean	110	0.1
Vietnamese	300	0.2
Other Asian ¹	221	0.1
Native Hawaiian and Other Pacific Islander	121	0.1
Native Hawaiian	18	0.0
Guamanian or Chamorro	57	0.0
Samoan	14	0.0
Other Pacific Islander ²	32	0.0
Some other race	2,281	1.2
Two or more races	2,105	1.1
<i>Race alone or in combination with one or more other races</i> ³		
White	161,138	82.0
Black or African American	31,173	15.9
American Indian and Alaska Native	1,572	0.8
Asian	1,960	1.0
Native Hawaiian and Other Pacific Islander	223	0.1
Some other race	2,850	1.4
HISPANIC OR LATINO AND RACE		
Total population	196,629	100.0
Hispanic or Latino (of any race)	5,057	2.6
Mexican	3,071	1.6
Puerto Rican	593	0.3
Cuban	91	0.0
Other Hispanic or Latino	1,302	0.7
Not Hispanic or Latino	191,572	97.4
White alone	157,040	79.9
RELATIONSHIP		
Total population	196,629	100.0
In households	194,124	98.7
Householder	81,800	41.6
Spouse	42,027	21.4
Child	48,313	24.6
Own child under 18 years	36,734	18.7
Other relatives	9,854	5.0
Under 18 years	4,129	2.1
Nonrelatives	12,130	6.2

Subject	Number	Percent
Unmarried partner	4,776	2.4
In group quarters	2,505	1.3
Institutionalized population	1,317	0.7
Noninstitutionalized population	1,188	0.6
HOUSEHOLDS BY TYPE		
Total households	81,800	100.0
Family households (families)	54,515	66.6
With own children under 18 years	21,496	26.3
Married-couple family	42,027	51.4
With own children under 18 years	14,498	17.7
Female householder, no husband present	9,418	11.5
With own children under 18 years	5,431	6.6
Nonfamily households	27,285	33.4
Householder living alone	21,075	25.8
Householder 65 years and over	6,984	8.5
Households with individuals under 18 years	24,156	29.5
Households with individuals 65 years and over	20,746	25.4
Average household size	2.37	(X)
Average family size	2.84	(X)
HOUSING OCCUPANCY		
Total housing units	122,085	100.0
Occupied housing units	81,800	67.0
Vacant housing units	40,285	33.0
For seasonal, recreational, or occasional use	24,945	20.4
Homeowner vacancy rate (percent)	3.2	(X)
Rental vacancy rate (percent)	30.2	(X)
HOUSING TENURE		
Occupied housing units	81,800	100.0
Owner-occupied housing units	59,713	73.0
Renter-occupied housing units	22,087	27.0
Average household size of owner-occupied unit	2.39	(X)
Average household size of renter-occupied unit	2.33	(X)
Subject	Number	Percent

(X) Not applicable

¹ Other Asian alone, or two or more Asian categories.

² Other Pacific Islander alone, or two or more Native Hawaiian and Other Pacific Islander categories.

³ In combination with one or more other races listed. The six numbers may add to more than the total population and the six percentages may add to more than 100 percent because individuals may report more than one race.

Source: U.S. Census Bureau, 2005 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Notes:

- The number of householders does not necessarily equal the number of households because of differences in the weighting schemes for the population and occupied housing units.
- For more information on understanding race and Hispanic origin data, please see the Census 2000 Brief entitled, [Overview of Race and Hispanic Origin](#), issued March 2001. (pdf format)

Explanation of Symbols:

1. An '*' entry in the margin of error column indicates that too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '***' entry in the margin of error column indicates that no sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended

--	--	--

distribution.

5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

6. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

7. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

8. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

9. An '(X)' means that the estimate is not applicable or not available.
